RONAL Bathrooms

RONALGROUP

RONAL Bathrooms

The art of modern bathrooms.

RONAL Bathrooms, the new bathrooms division of RONAL GROUP, is setting new standards in bathrooms and wellness solutions. Under the roof of RONAL Bathrooms four brands are coming together sharing the same passion for technology, craftsmanship, innovation and design with absolute commitment to the highest quality. The common mission for our customers: we create your unique bathroom and wellness experience.

Individual and modern shower solutions, high-end in quality, functionality and design under the brands RONAL and KUDOS are the core competence of RONAL Bathrooms. The elegant Italian bathroom furniture and bathtubs of KAROL brand and the wellness products under the brand of GLASS1989, also made and designed in Italy, delight and complete the bathroom and wellness experience.

 **RONAL**

RONAL (former SanSwiss) offers a comprehensive portfolio of high quality and modern shower solutions with shower doors, enclosures, columns and trays for every bathroom in any measure. Crafted for wellbeing: RONAL shower solutions aims the perfect combination of functionality, comfort and design.

 **glass**
1989

GLASS1989 specialising in wellness and relaxation with its top-of-the-range wellness solutions. The range of products on offer is comprehensive, with a strong Italian design: indoor and outdoor spas, saunas, hammams, multifunctional showers, whirlpool and design bathtubs. GLASS1989 provides ultimate wellness experiences both for domestic and professional use.

Karol

KAROL has always cultivated Italian craftsmanship with a special focus on contemporary design excellence and high manufacturing quality standards. Specialising in elegant, high-end bathroom furniture, the brand also offers bathtubs and washbasins. All KAROL products are designed and manufactured in Italy.

 **KUDOS**

KUDOS, the British brand and high-quality manufacturer of shower doors, enclosures and trays, combines innovative design and excellent engineering for its shower solutions. KUDOS premium collection for 2024 includes a Red Dot Design award winning shower enclosure range Ultimate10 with a unique in/out hinge mechanism.

GLASS1989 Whirlpool bathtubs

Experiencing a whirlpool bathtub is much more than taking a bath: it is a moment to dedicate to yourself, an energizing experience that awakens body and mind, a place to let all daily tensions slip away, an oasis of relaxation where you can dive in and enjoy the benefits of hydrotherapy.

A whirlpool bath has plenty of benefits:

- relieves joint pain, reduces muscle tension and has a decontracting effect
- strengthens immune system and reactivates metabolism
- decreases blood pressure and stimulates the circulatory and lymphatic system
- has a detox effect and purifies skin, making it smoother and more compact. It reduces water retention
- induces body relaxation and facilitates sleep
- stimulates production of endorphins and is anti-stress.

Our wellness systems and nozzles

Whirlpool

Air and water come out the nozzles placed on bathtub sides, stimulating blood and lymphatic circulation. Water gets sucked and then brought back into the tub, mixed with air, through the whirlpool jets: jets can be adjusted with different intensity, giving at the same time a relaxing and revitalizing massage.

Comfort

Air and water whirlpool nozzle, can be adjusted to vary direction and intensity.

Jet Plus

Adjustable air and water whirlpool nozzle, particularly suitable for back and feet zones.

Filo

Air and water whirlpool nozzle, flat and perfectly integrated with the bathtub, adjustable.

Airpool

Air bubbles come out the nozzles placed at the bottom of the tub, for a gentle and relaxing massage. Airpool system stimulates peripheral circulation and is particularly effective as an anti-stress, thanks to the reduced noise of the blower.

All Airpool bathtubs have Blowing After function which blows out any residual water close to the nozzles.

White

Air jet, silent and relaxing.

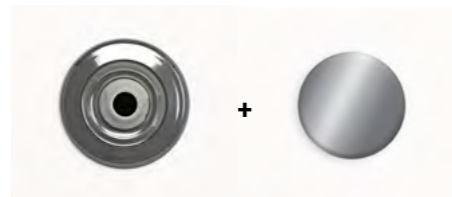

Chromed

Air jet, silent and relaxing.

Combi

Combines the effects of the two previous systems, for a complete massage and exclusive results: depending on your needs you can choose a regenerating and relaxing massage or a reinvigorating and toning one.

White

Air jet

SkinSublime

SkinSublime is the unique experience of taking a bath surrounded by millions of micro bubbles, that are 50 to 100 times smaller than those in traditional whirlpool bathtubs: these micro sized air bubbles, rich in oxygen, disperse in the water like a delicate milk bath, softly embracing your body with a silky touch, leaving your skin fresh, clean and rejuvenated.

SkinSublime

Water jet enriched with oxygen-rich micro bubbles.

Microbubbles enter in your pores:

- improve oxygenation and cell regeneration
- trigger collagen production, expelling impurities and fighting free radicals
- release negative charged ions as they improve serotonin levels and help relax mind and body.

Equipment

GLASS1989 bathtubs can also be equipped with some optional that complete the wellness experience.

Heater

Heater, which maintains the desired water temperature in the bathtub, is available on Mawi, Eden, Linea Duo, Nubea and Pop series.

Chromotherapy

Chromotherapy function with spotlight, which makes the bathtub experience even more relaxing thanks to its colors. It is standard on all models with Lite_D control.

Bluetooth

Bluetooth audio option allows you to connect your Bluetooth device and listen to your favorite music while you are bathing or showering: this feature is also standard on all models with Lite_D control and Round control.

Sanitization

GLASS1989 bathtubs can be equipped with a semi-automatic sanitization program, to clean all nozzles and whirlpool circuit with a sanitizing liquid filled into a special tank.

Faucets

Rim mounted faucets, with manual or thermostatic mixer, with bath spout or overflow water inlet.

MATERIALS FOR GLASS1989 WHIRLPOOL BATHTUBS

AC

ACRYL

Solid, durable and high-performance material, acrylic can have a glossy or matte finish, is easy to clean and is unalterable over time.

Matt White

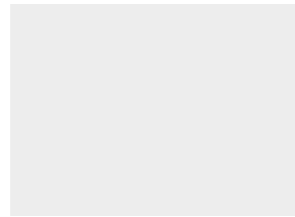

Glossy White

PL

PLYLITE

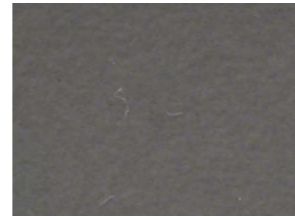

Composite material, made of an aluminum layer of high density polyurethane and, on the outside, an additional layer of aluminum coated with a PVC finish that allows different textures and colors.

Matt White

Textured Matt White

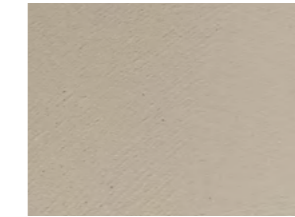

Matt Grey

ER

ECORESINA

State-of-the-art resin-based finish applied to a PlyLite support: the hand made layering of Ecoresina gives to the surface an unconventional look and an original textured effect.

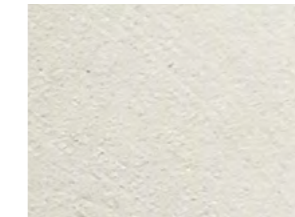

Polvere

Cenere

Ardesia

Neve
